

UNOPIU'

Fabrics — 2026

Fabrics

En -

All fabrics in the Unopiù collection are specifically designed for outdoor use. In addition to their particularly soft touch, they offer maximum resistance to UV rays and ensure long-lasting durability. A special treatment protects them from liquids and dirt, making them easy to clean with a soft sponge and neutral soap, or in the washing machine at low temperatures. In particular, the Waterproof fabrics are coated with a PVC film that makes them 100% waterproof.

It -

Tutti i tessuti della collezione Unopiù sono specifici per l'uso esterno. Oltre ad una particolare morbidezza al tatto, offrono la massima resistenza ai raggi UV e garantiscono una lunga durata. Un trattamento specifico li protegge dai liquidi e dallo sporco e li rende facili da pulire, con una spugna morbida e sapone neutro, oppure in lavatrice a basse temperature. In particolare i tessuti Waterproof sono spalmati con una pellicola di PVC che li rende impermeabili al 100%.

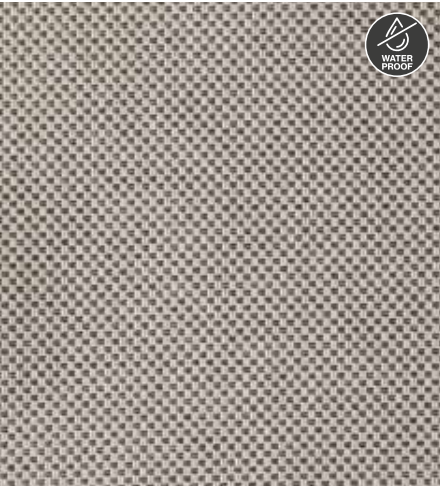

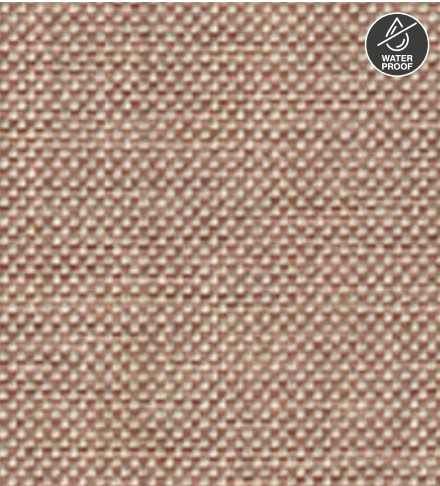

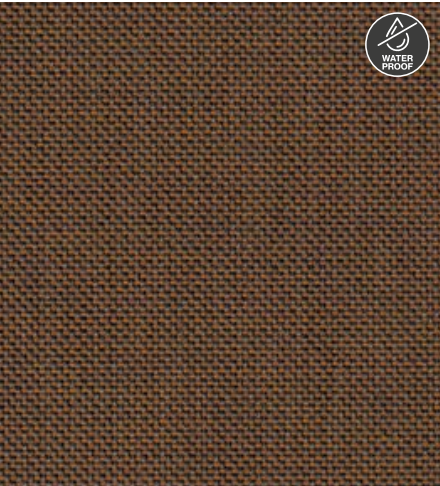

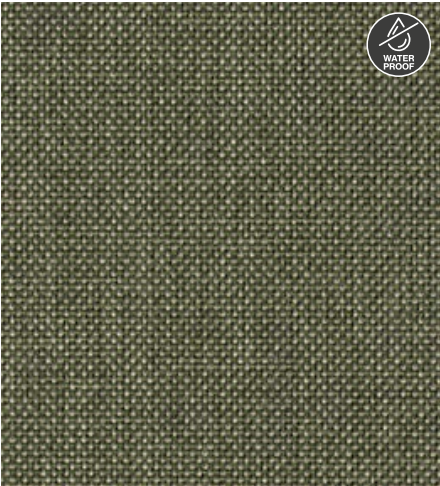

Fr -

Tous les tissus de la collection Unopiù sont spécialement conçus pour une utilisation en extérieur. En plus d'une douceur particulière au toucher, ils offrent une résistance maximale aux rayons UV et garantissent une longue durée de vie. Un traitement spécifique les protège des liquides et de la saleté, ce qui les rend faciles à nettoyer, soit avec une éponge douce et du savon neutre, soit en machine à basse température. En particulier, les tissus Waterproof sont enduits d'un film en PVC qui les rend 100 % imperméables.
