PREMIUM LOW

POOL ENCLOSURES

An exclusive range of premium low pool enclosures by Alukov accentuates the **modern design, extreme stability, and construction firmness**. The most popular angular models **VIVA** and **TERRA** are favoured for their comfortably walkable rail placed only on one side of the pool.

HEAVY LOADABLE

robust construction confirmed
by static calculations

POWERED SLIDING

sliding of segments can be controlled
automatically by an electric engine

PREMIUM MEDIUM

POOL ENCLOSURES

A solid middle ground between low and high pool enclosures. These products provide our customers with larger inner space and the possibility of movement around the pool. The unique elements of **NEO models - EASY-UP or AIR-FRESH SYSTEM** are offered as a standard feature.

COMFORT

The closed enclosure allows you to stay in your pool even during rainy or windy weather

AIR FRESH SYSTEM

lift up draft seal on enclosure faces maintains the water quality with warm air ventilation in summer
