

Sauna Kaizen

by yuki

Rediscover Harmony with Yuki

FEATURES

- Seats up to 3 people
- yukiHeat technology for minimizing heat stratification (only with electric heater)
- Insulated with mineral wool
- Subtle warm LED lighting
- Larch cladding
- Full height window with tempered double pane glass
- Wi-Fi enabled sauna controller (only with electric heater)

YOUR CHOICE

- Electric Heater Sentotec 100 with a built-in controller (standard)
- HUUM Drop with Wi-Fi controller (upgrade)

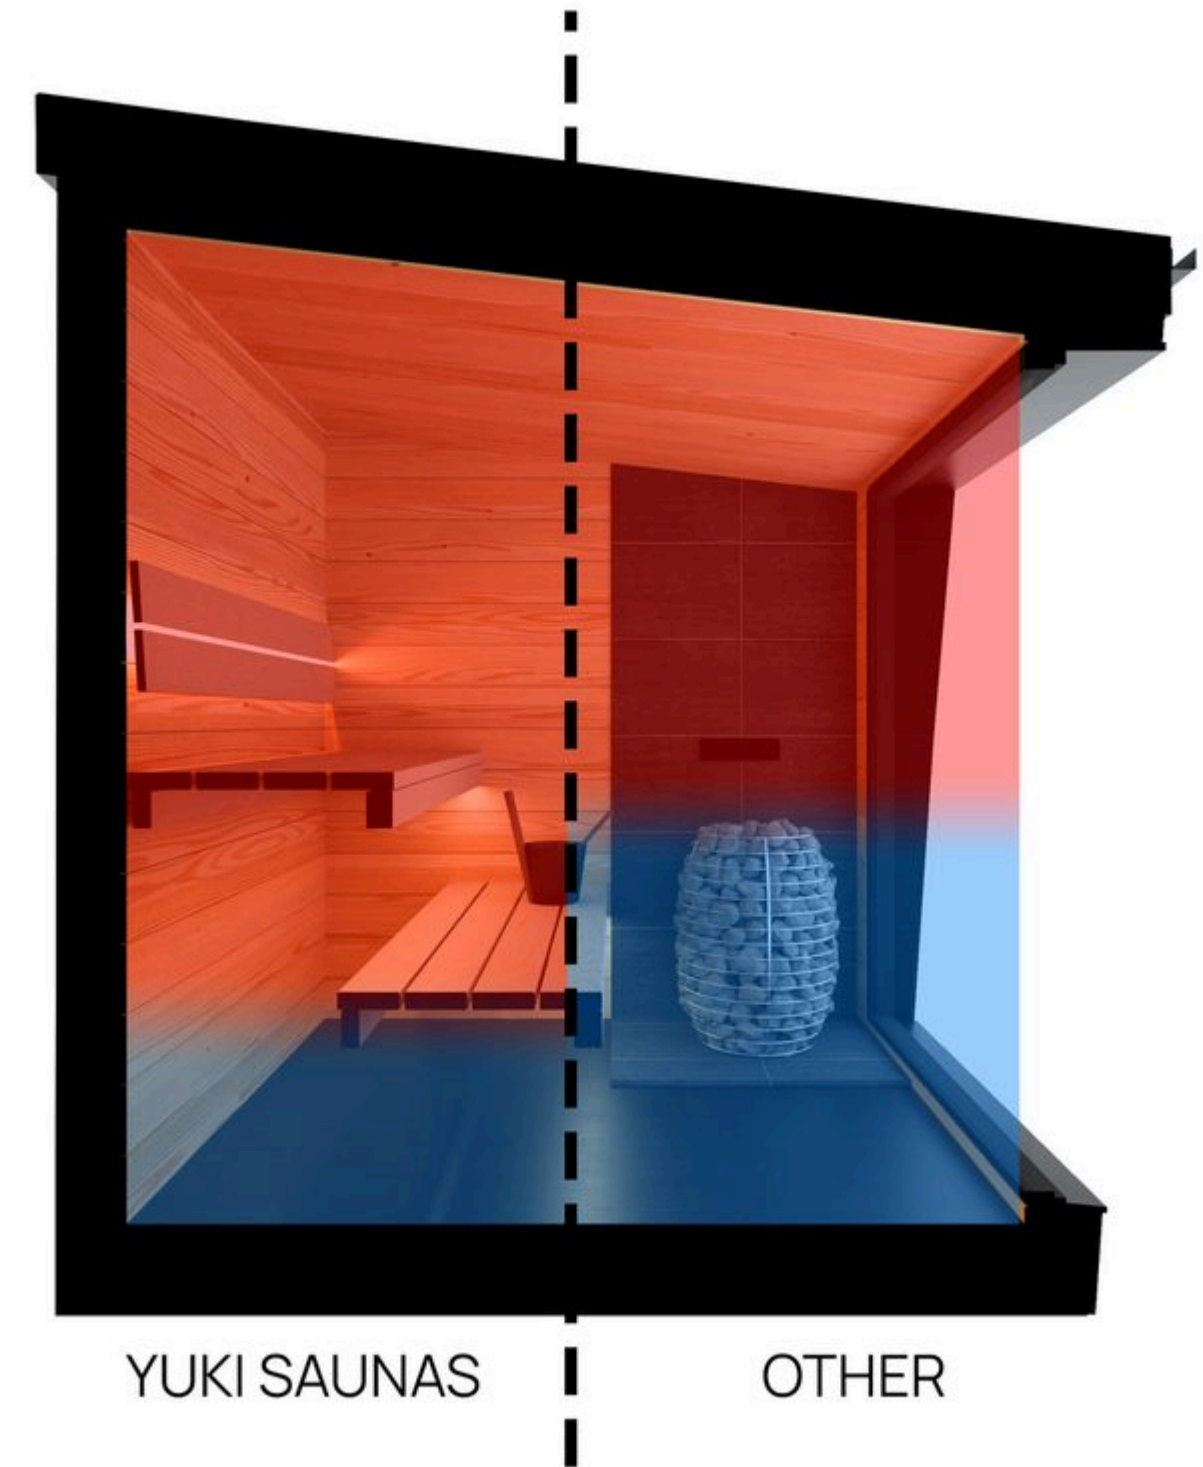

Why our saunas feel better

Every one of our saunas is equipped with **yukiHeat technology**, our exclusive mechanical ventilation system.

How it works:

Strategically positioned mechanical fan gently **extracts colder, stale air** from the lower areas of the sauna. Simultaneously, **fresh, clean air** is introduced just above the heater, where it's naturally warmed.

This intelligent design creates perfectly uniform heat throughout the sauna, enveloping you in a consistent, restorative warmth that feels incredible, regardless of external conditions. With yukiHeat, your comfort is always guaranteed.

Sauna Kaizen options: Exterior finishes

UNTREATED LARCH*

Standard

Larch is exceptionally durable and develops a beautiful natural patina, transitioning from warm wood tones to an elegant silver-grey over time.

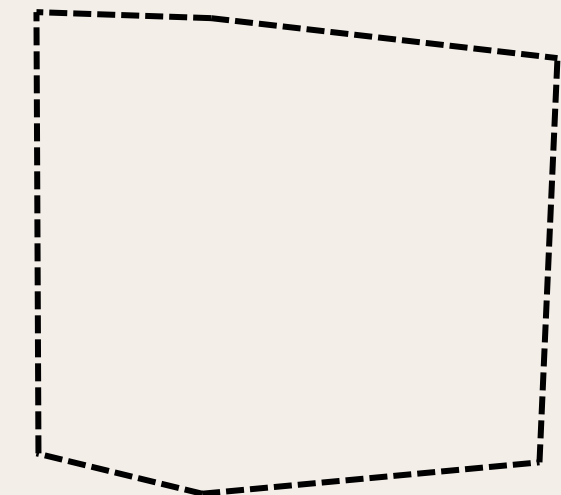

THERMOWOOD*

Thermo pine is our most recommended choice for its stability and weather resistance. It ages beautifully from warm caramel tones to a refined silver-grey, offering a durable, low-maintenance exterior with a clean, modern look.

PAINTED THERMOWOOD

Thermo pine can be painted in any colour to match the style you want. We especially love our signature black.

YOUR OWN CHOICE

Do you have a material in mind? We can work together to tailor the exterior specially for you.

*Can be impregnated with any colour, but we recommend our signature black

yuki

Exterior finishes

WINDOW OPTIONS

- Double pane, clear tempered glass (standard)
- Smoked, mirrored or frosted glass (add-ons)

STANDARD FEATURES

- Towel hooks
- Exterior porch lights

ADD-ONS

- Transportation trailer unit

yuki

Interior finishes

HOT ROOM

- Aspen, Lime or Alder walls, depending on availability
- 2 bench levels
- Integrated LED lighting under the benches and behind the backrest
- Waterproof, fully insulated flooring with vinyl finish for easy maintenance
- Door and window trims
- Natural slate tile behind the heater
- Integrated yukiHeat ventilation system (only with electric heater)

ADD-ONS

- Sauna accessory kit: bucket, ladle, essential oils, crystal menthol, thermometer, hourglass
- Wooden floor panel
- Insulated sauna doors

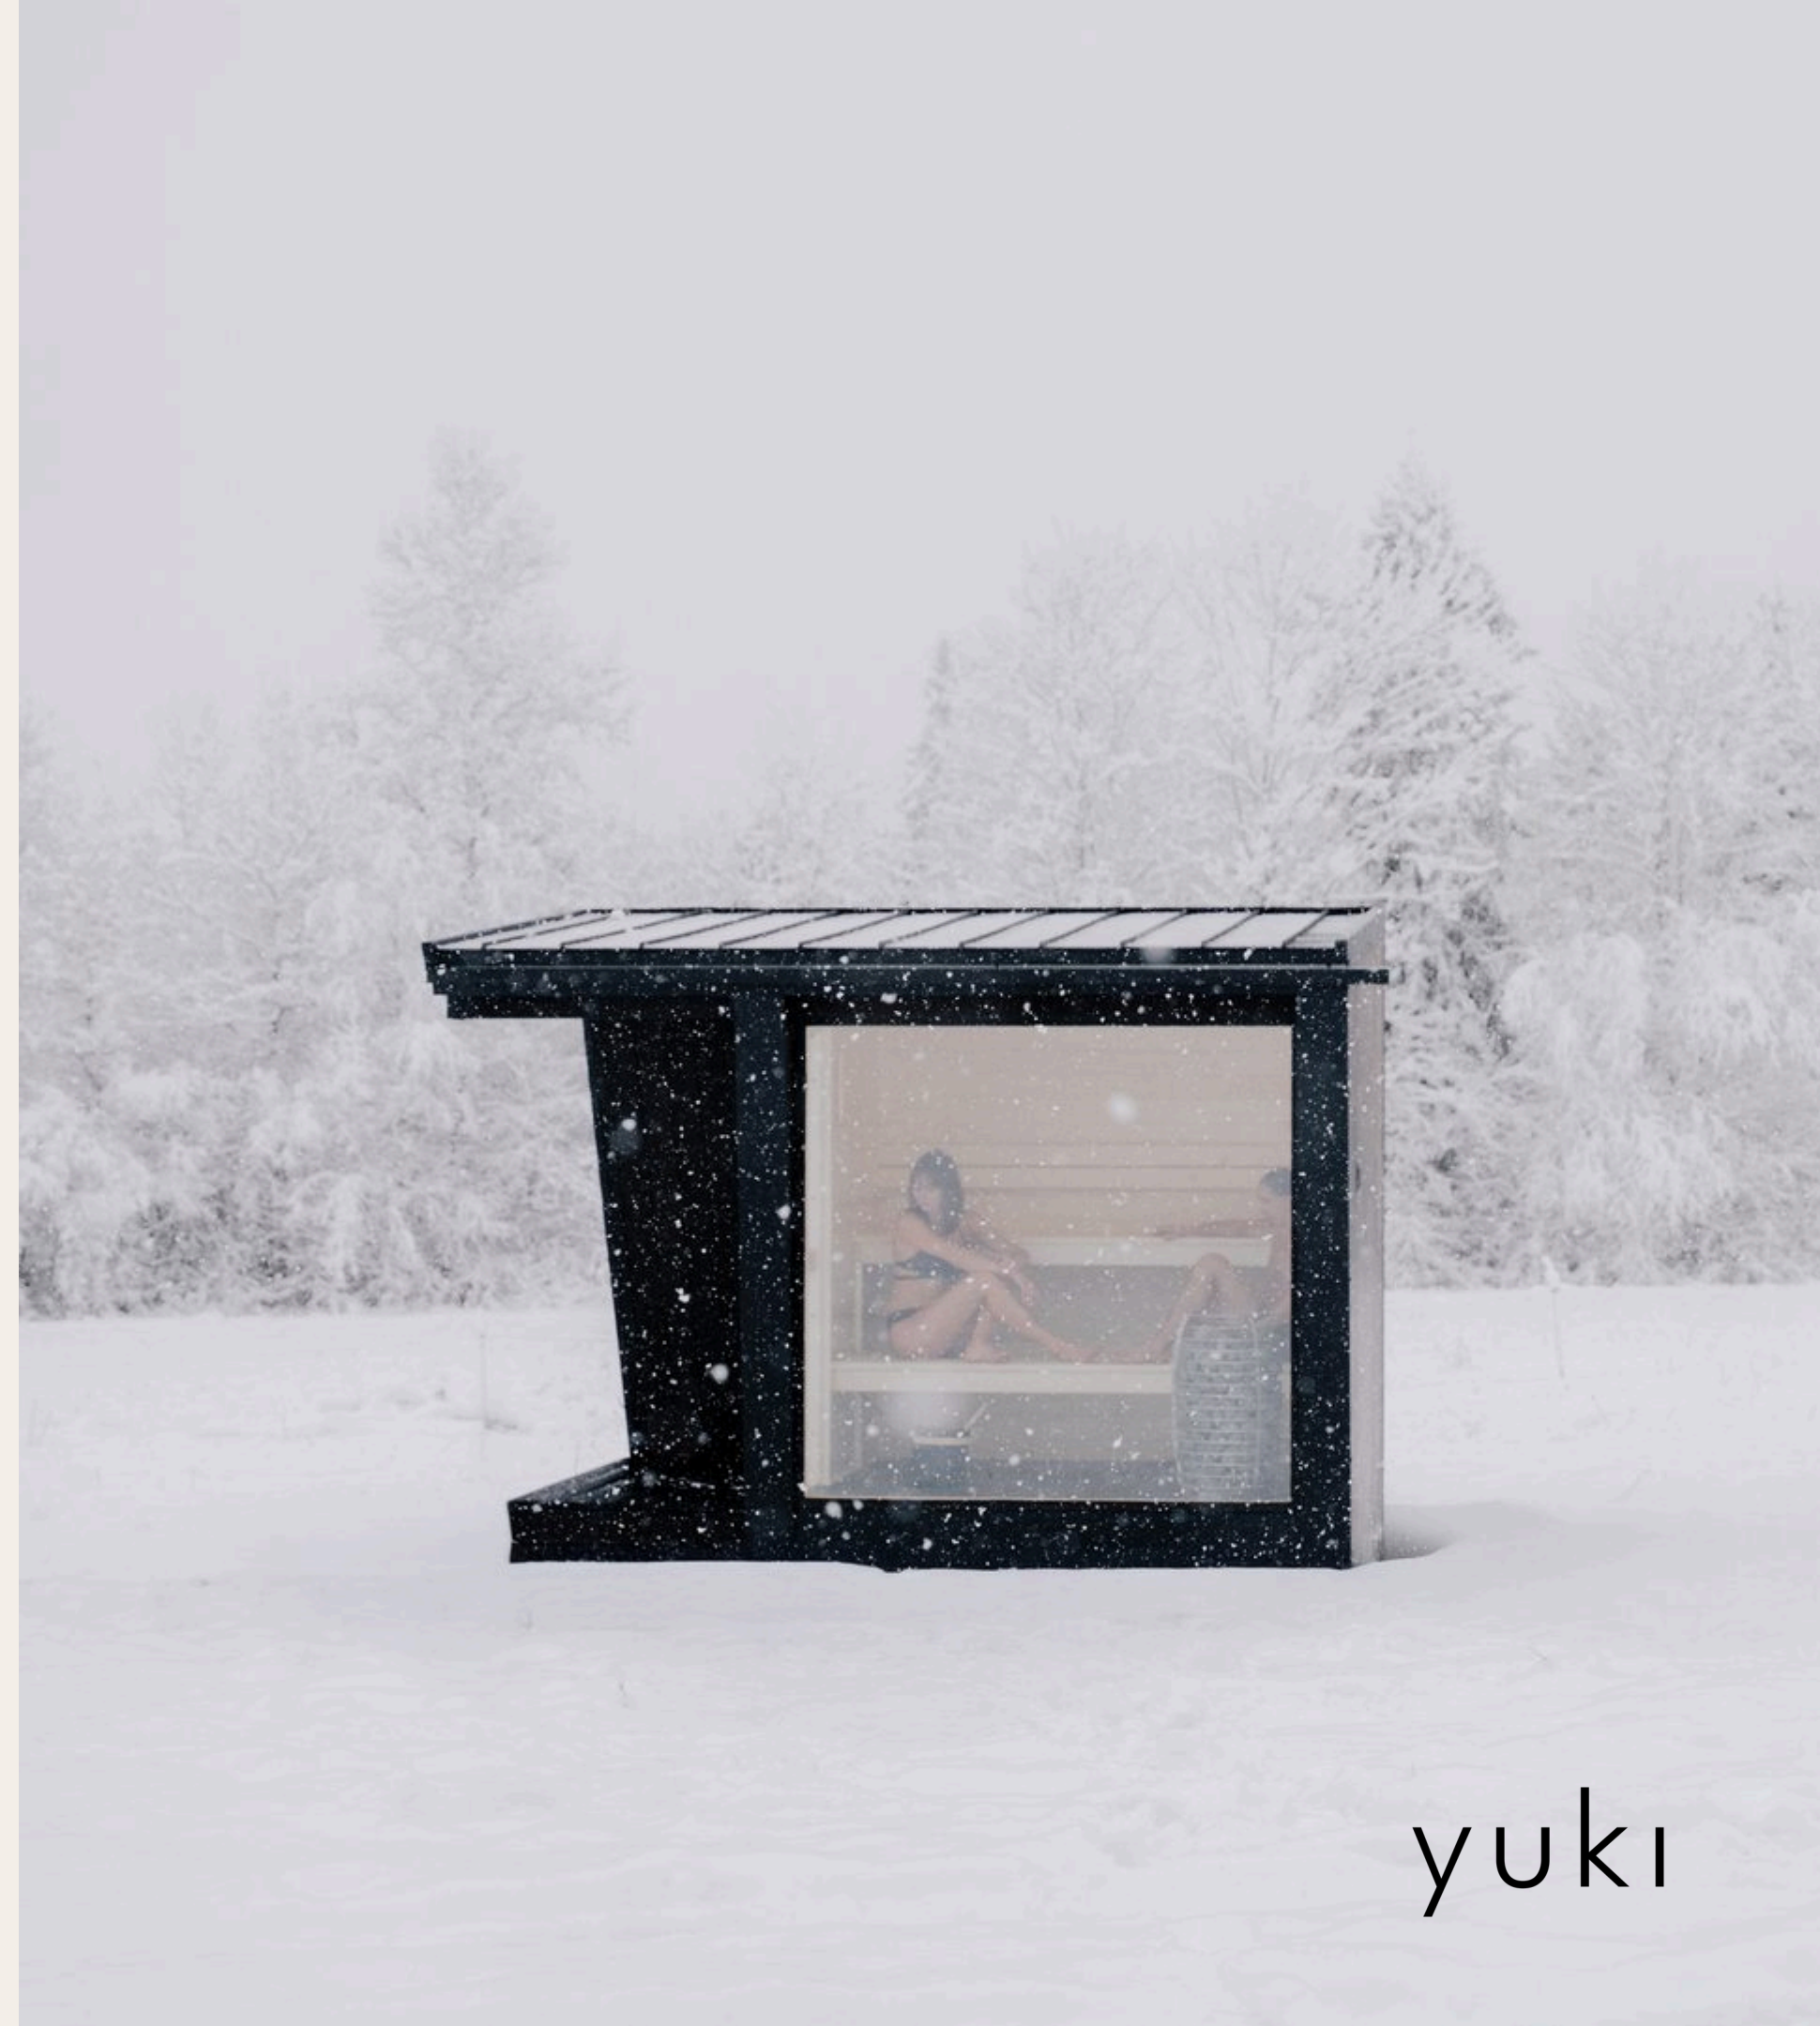

About Us

Are you feeling tired and lacking private space to relax? At Yuki Sauna, we help you get rid of stress by offering luxurious garden saunas for health and relaxation.

The saunas are designed by architect Wojciech Kumik, who has been designing saunas and assisting in their construction around the world since 2020.

Each one is handcrafted in the Beskidy Mountains, Poland by craftsmen, with attention to every detail and precision of workmanship.
